## AFTER - BEFORE

What comes Before

See the number line

In <sup>the</sup> first line you see number 1 to 10  
So if you want to find what comes  
before 4 you will see No. 3 is written  
before 4

Same as what is written before No. 9  
is No. 8. So we can say No. 8 comes  
before No. 9.

In the second line you see numbers from 11 to 20

So before No. 13 you will find

No. 12

like this 18 comes before 19

Let's see some more example

### Before Number

2 3      9 10

5 6      13 14

7 8      15 16

### After Number

3 4      11 12

9 10      19 20

7 8      17 18

## MISSING NUMBER

Write the missing number

1 2      5      7 8      10      12 13      15

Write the number that comes before

     4      13      20

     7      15      12

     10      17

Write the number that comes after

2      14     

7      16     

10      19
